What makes a thermostat smart?

No need to program

Some smart thermostats automatically adjust your heating and cooling system to temperatures that you find comfortable.

The savings add up

By “learning” when you’re home or away, smart thermostats can help you save up to \$120 on annual energy costs.

Apply for your \$75 incentive online at focusonenergy.com/smart or call **800.762.7077** to learn more.

Compare and Save

Looking for a new appliance? We’ve partnered with online and in-store retailers to make ENERGY STAR® certified models more affordable. You can compare prices on appliances to find the products that best fit your needs. Learn more at focusonenergy.com/appliances.

Bonus savings! Get a \$25 bill credit when you upgrade to a smart thermostat. Find out how at sunprairieutilities.com.

REDUCING ENERGY WASTE ACROSS WISCONSIN

Focus on Energy, Wisconsin utilities’ statewide program for energy efficiency and renewable energy, helps eligible residents and businesses save energy and money while protecting the environment. Focus on Energy information, resources and financial incentives help to implement energy efficiency and renewable energy projects that otherwise would not be completed.
